

P. N. CORSETS

Some of the good features of the P. N. practical Side Corsets:

1—The extra side pieces make the breaking down of the Corset impossible.

2—These side pieces can be removed from the pockets wherein they are set and reversed from time to time without sewing or ripping, insuring permanent shapeliness to the Corset and adding to its lease of service.

3—If a lady wishes ease in reclining, the side pieces may be removed and replaced at her pleasure.

4—The cork steel protectors used in all P. N. Corsets will keep the front steel from rusting and breaking. We recommend that you try these Corsets.
